

MODERN CLASSIC CARS FOUNDATION

ACN 683 064 735

MODERN CLASSIC CARS FOUNDATION

Our Goal

To train people with the skills required across various trades to ensure the future of the Veteran, Classic, Hot Rod and Muscle Car industries.

Why?

The specialist vehicle industry is in fast decline due to the aging nature of the current workforce.

Currently, adoption rates of bespoke trades by young people are incredibly low and training opportunities must be made available to draw people into the industry to ensure its future.

The cost of training for small businesses is inhibitive and creates inefficiencies.

Core Activities

Training of skills & care of specialist vehicles.

The Modern Classic Cars Foundation will provide skills training to apprentices across various trades relating to the specialist vehicle industry.

To ensure ample training opportunities whilst also acting as a revenue raising stream, the Modern Classic Cars foundation will operate as a specialist vehicle mechanic and car restoration company providing a range of trade services.

Programs & Services

Skills training programs will target skills such as

- mechanics
- panel beating
- spray painting
- trimming
- engine machining
- auto-electrical
- engineering
- the use of new technology within the industry.

Services will be provided to allow for training opportunities and revenue raising. This will ensure the ongoing success of the foundation and will include

- general vehicle maintenance
- vehicle restoration
- vehicle modification
- smash repairs
- engine machining and rebuilding
- trimming
- vehicle sales
- parts sales
- car club management services

Fee-Free Apprenticeships

Costs of training, start up tools, PPE
and uniforms covered

Above award and industry standard
wages/conditions

Exposure to a range of trades and skill
sets from experiences, passionate
tradespeople

Career support at the completion of
training

Training with MCCF is a unique, engaging experience and a fast track to a successful and rewarding career in the specialist vehicle industry.

Target Market

The Modern Classic Cars Foundation will have 3 main target markets critical to its success.

First and foremost the target market will be people looking to develop or broaden their skills in the specialist vehicle industry and the trainers to pass on the knowledge of their trade.

To ensure on going work and opportunities for trainees, both consumers and investors will be vital.

Trainees & Trainers

People looking to increase their skills base or enter a new trade.
Mature trades-people with a passion for passing on their knowledge and skills.

Consumers

Specialist vehicle owners and enthusiasts.
Car clubs.

Investors

Independent donors with links to or passion for the specialist vehicle industry, car clubs, industry related businesses or associations.

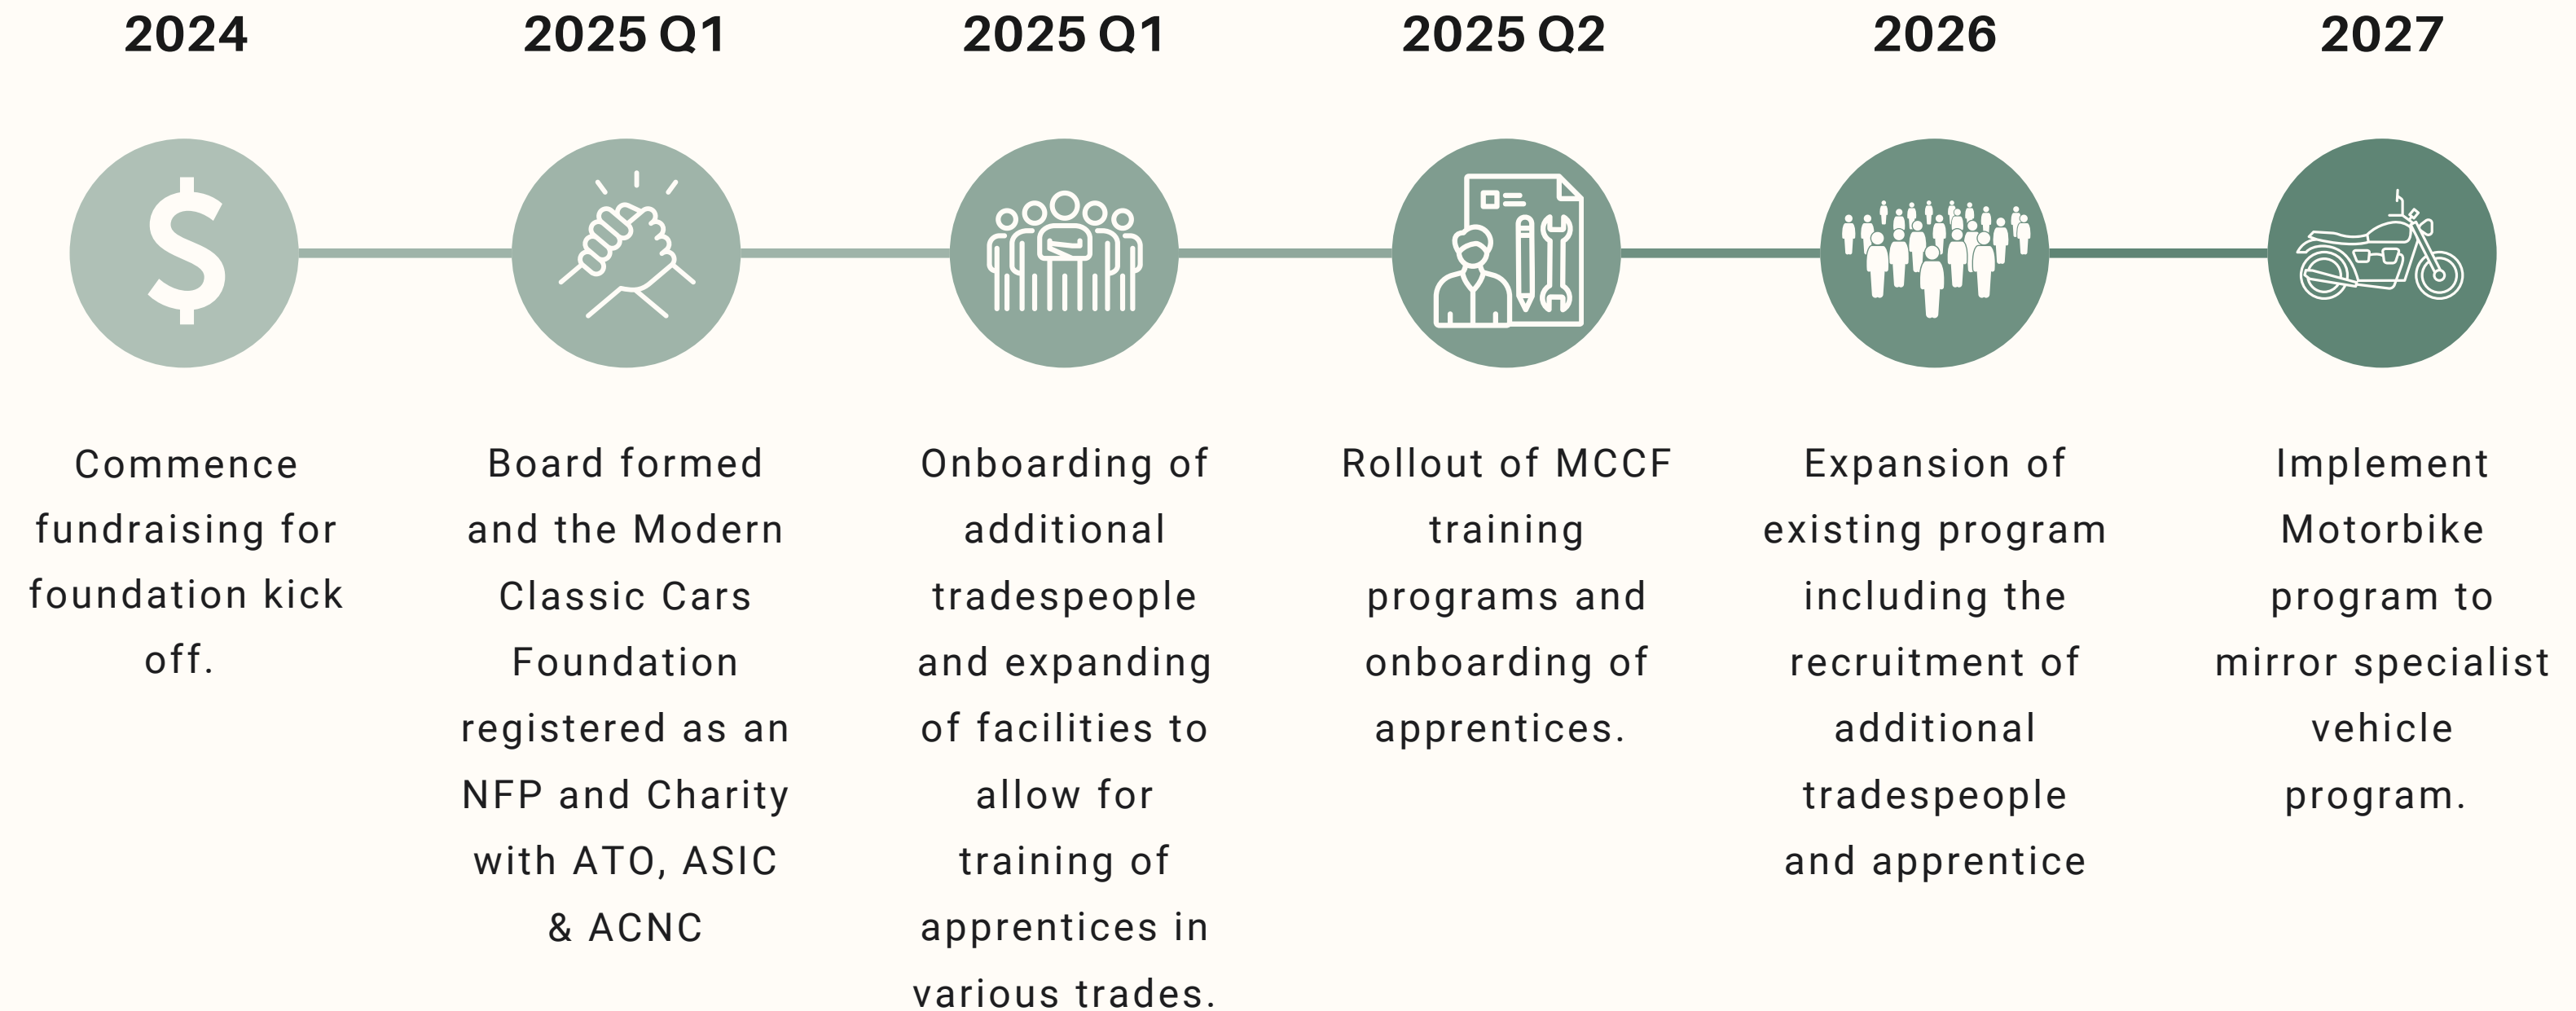

Benefit

- Increased opportunity for young people, both male and female, seeking skills to operate in a going industry
- Increased Australian manufacturing
- Ensured ongoing use of specialist vehicles for historical and recreational purposes
