## RAJEEV GUPTA

"As a team, we at Alium Capital have always found the RACA to be an exceptional venue that supports our professional and personal needs. The location is perfect, and the facilities, including the gym, inviting restaurant, and lively bar, consistently exceed expectations.

The parking is not only convenient but also managed by a fantastic team in the garage, who ensure everything runs seamlessly every time we visit.

We hosted our annual corporate day at RACA last year, and it was handled with impeccable attention to detail and professionalism, making the event a resounding success.

We remain loyal members of the RACA and have been particularly impressed with the positive changes and improvements over the last 12 months. It's clear the team is dedicated to creating an environment that caters to the needs of its members, and we couldn't be happier to be part of it."

## DARREN BAILEY

“Generator United has been a corporate member at the RACA for over 10 years and we have really enjoyed and benefited from the experience over this period. It's invaluable to have access to all the amenities that RACA offers, and especially as the location is so central and convenient.

RACA is a place that allows for the ability to connect with other like-minded people. However, one of the many strengths of RACA is that it also affords you the ability to connect with different interest groups at the club. RACA offers a wonderful atmosphere, filled with great people, both members and staff, where long-term friendships can develop.

The club is a true gem, worthy of membership in its own right. However, when you include the other benefits like the business centre, function rooms, corporate spaces, billiard room, bars, restaurants, community spaces, hotel accommodation, national roadside assistance, carpark access, and reciprocal membership rights at other exclusive clubs from around the world, corporate membership and value really sells itself.

RACA truly is a local offering, filled with history and tradition, but with a global reach. All these amazing benefits, all for the cost of a standard gym membership, which just happens to also be included in the RACA membership. RACA Corporate Membership makes a lot of sense on so many levels, across so many levels of the club, which is why I've been a member for over 10 years.”
